Professional Summary

I am currently pursuing a full-stack developer course and have a strong foundation in programming. I have gained proficiency in HTML, CSS, and JavaScript for front-end development. I am dedicated to expanding my skills and passionate about creating dynamic and interactive web applications.

Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2023	Bachelor of Science	University of Mumbai	7.13/8.5
2020	Intermediate (Class XII)	Gokhale Education Society's	61.23%
2018	Matriculation (Class X)	St Thomas High School	79.6%

Internship and Certifications

Newton School | Trainee

November 2022 - Present

- Developed Java applications to solve various programming challenges
- Participated in code reviews to ensure code quality and adherence to best practices

Projects

Unsplash Photo Search | Unsplash ([link](#))

July 2023 - July 2023

Features :

- Developed a responsive web application that enables users to search for a wide variety of high-resolution photos.
- Implemented a user-friendly interface with HTML and CSS, providing an intuitive browsing experience.
- Leveraged JavaScript to integrate the Unsplash API, allowing users to enter search terms and retrieve relevant images dynamically.

Tech Stack : HTML , CSS , JAVASCRIPT

Description : A web application that allows users to search for high-quality photos from the Unsplash API.

Navigate GitHub Profiles | Github ([link](#))

July 2023 - July 2023

Features :

- Created a web application that allows users to search for GitHub profiles and view relevant information and repositories.
- Developed an intuitive and visually appealing user interface using HTML and CSS.
- Utilized JavaScript to interact with the GitHub API, fetching and displaying user profiles and repositories dynamically.

Tech Stack : HTML , CSS , JAVASCRIPT

Description : A web application that retrieves and displays GitHub user profiles and repositories.

Lobe Clone | Lobe ([link](#))

July 2023 - July 2023

Features :

- Built a simple and user-friendly web app using HTML and CSS for easy image classification.
- Created an intuitive interface that allows users to classify images into categories effortlessly.
- Designed and styled the web app using HTML and CSS to ensure a visually appealing experience.

Tech Stack : HTML , CSS

Description : A web application built with HTML and CSS that allows users to classify images into various categories.

Skills

Computer languages	Javascript, Java, HTML, CSS
Software Packages	Bootstrap
Additional Courses Taken	Data Structure
Soft Skills	Teamwork
